

MoU signing between Aviation Hub and FlyBest to strengthen aviation links between Singapore and its regions.

Aviation Hub (AVH) is pleased to announce that we have signed the Memorandum Of Understanding (MoU) with FlyBest in December 2022. With its team of experienced pilots, FlyBest Flight Academy in Batam offers a comprehensive suite of flying courses for both aspiring and seasoned pilots . It is the only private flight school in Indonesia located in an International Airport with the added advantage of allowing students to experience real air traffic in local and international area.

The strategic partnership with FlyBest opens the Southern gateway for Aviation Hub to seamlessly conduct flight adventure and training in the Riau Archipelagic Islands in Indonesia. With its proximity to Singapore, our members can now fly to remote places to enjoy pristine waters at island resorts in the archipelago and South China Sea, plus enjoy the wonders of the eco-system in the region.

We are certain that this partnership will strengthen the future prospects of both flight schools and bring the best of both worlds together. The Aviation Hub's team is enthusiastic to work closely with Flybest on this significant journey and we wish for continued success together.
