

Aviation Hub is the appointed ground handling agent for the camera crew of Singapore SailGP

Singapore has made a name for itself with the first ever Formula 1 Night Race, still going strong since 2008. Now that the city has torn up the asphalt track with race cars, it's time to take to the seas, as world-renowned sailing tournament SailGP arrived in Singapore for the first time in January 2023. SailGP is an international sailing competition using high performance F50 foiling catamarans, where teams compete across a season of multiple grands prix around the world.

Aviation Hub is delighted to be a part of this inaugural event where we provide the complete ground handling support for the aircraft - helicopter ferrying the camera crew of Singapore SailGP. Our location, right next to Seletar Airport, coupled with our experienced team make us their ideal choice. Our team of aircraft engineers were on site throughout to provide the personalized service and ensure efficient operations. The services provided by our team include refuelling the aircraft, marshalling, and parking, towing and luggage handling.

Aviation Hub thanked SailGP for the opportunity as we continue to be the preferred ground handling agent in Singapore - providing the expertise on ground for leisure and commercial aviation travel.
